FEEL: Students realized that they could not play properly and there was no order.

IMAGINE: To play and enjoy the game like a professional team.

DO: The children formed teams and began training with each other's help. They developed a very good training program and started winning interschool matches.

Looking at your progress in sports, some other schools have expressed a desire to have their kids learn football.

They continued to coach their football team as well as 7 other school teams. They were able to expand their coaching team and train two coaches in each school to help them. These little kids brought a revolutionary change not only in their school, but also in 7 other schools with their imagination and zest.

Potholes on the way to school

Winner : Design for Change School Challenge, India 2012 | The Orchid Public School, Mysore, Karnataka
Watch the story : <http://bit.ly/potholes-on-the-road>

FEEL: A very bumpy ride on the way to school. The students of The Orchid Public School had a huge problem with potholes on their way to school. The road was quite dangerous and often caused accidents.

The students wrote many letters to the concerned authorities asking them to take some action. However, they did not receive any response.

IMAGINE: They discussed with friends and teachers to figure out the best possible solution to the problem.

We will have to help ourselves and fill the potholes. Lets meet the contractor to learn how to make this happen.

DO: They split into teams. One group did the digging and the other group started to make the tar.

DO: They collected whatever material they could and through trial and error came up with the best possible way of leveling the potholes.

After a lot of hard work, the students managed to create a leveled road making the journey safe and hassle free for everyone.

"What impressed us was that these children chose a bold idea for a problem that affected them directly. They decided to take action themselves and designed an effective solution."

- M P Ranjan, Design Thinker, Jury Member.

"This story won because the children implemented a solution which was beyond rallies and street plays. It clearly has empowered them to take up future challenges. That is the power of I CAN."

- Christian Long, Cannon Design, Jury Member.
